

2024 Community Impact Report

Sharing our commitment to our communities

In 2024 we found our groove

Volunteer Hours

For the third year in a row, our team tracked over **5000** volunteer hours. Collectively, we've figured out how to make volunteering part of our everyday life. Showing up for our community isn't a passing fad, it's something we commit to day in and day out.

Volunteer Opportunities

We planned over **35** Seer sponsored volunteer opportunities in 2024. In Philly, San Diego, and Ohio, our team participated in Habitat for Humanity builds, litter pickups, the Covenant House Sleepout, and meal prep and packaging. What's more impactful is individually, our team found ways to give back in their own communities across the country.

AI

AI isn't just for tech workers. By leveraging this new technology with our Community Impact program, we made workflows more efficient, leveled up our data reporting, and even created a custom GPT to encourage voter engagement. This gave us more time for the most important work: the person to person connection.

In 2024 Seer Contributed

\$802,595

To the community through volunteering, pro bono work, and philanthropic giving

2024 Financial Contributions: \$802,595

2024 Financial Contributions

Pro Bono Digital Marketing Services: \$99,009

In 2024, Seer worked with 3 non profit organizations, providing SEO and Paid Media services. Value is assigned by the scope of the work, like we would for a paying client. Our team contributed 229 hours to these projects.

Seer provided \$30,000 less in pro bono services YoY. Higher sale volume in 2024 led to less team bandwidth for pro bono projects.

Pro Bono Digital Marketing Services

Unskilled Volunteer Hours: \$274,320

In 2024, our team volunteered 5326 unskilled hours. We valued this time at \$51.50/hour. Activities that make up these hours include Seer sponsored events such as:

- Habitat for Humanity team build
- Mentorship opportunities with youth interested in tech
- Meal prep and service for food insecure individuals
- Donating blood
- Writing letters to homebound senior citizens

They also include activities in team members' local communities such as:

- Supporting youth through mentorship and coaching
- Serving on boards of local non profit organizations
- Environmental activities such as litter pick up and community garden maintenance

Unskilled Volunteer Hours

Paid Hours That Support Community Impact: \$203,840

These are not volunteer hours but paid time that the team spends on Community Impact initiatives. The Community Impact Lead's salary and benefits are included as well.

Paid Hours that Support Community Impact

Philanthropic Donations: \$191,818

These funds are tax exempt non profit donations. They encompass:

- Donations made in honor new clients
- Donations allocated by team members to organizations they care about
- Giving Tuesday donations- \$20,000 in 2024!
- Event and corporate sponsorships

Philanthropic Donations

Expenses: \$33,606

These funds go toward Community Impact programming at Seer. They include everything from paying our annual B Corp fees to providing pizza for the young adults who visit Seer to learn about careers in tech. Our goal is to keep them at about 20% of our Community Impact budget. In 2024, they were 21%
